Andy Knows "Fish and Chips"

Published in The Avenue News

"Fish and Chips" are a natural to Andy and his family.

The story begins in 1926, when Andy's grandfather Tony Markopoulos, a Greek immigrant, came to the U.S. and joined the US Navy. After serving for several years, he returned to his hometown, Thess, Greece to marry his wife Iana.

In 1928, Tony made his way back to the U.S. and to the docks of Erie, Pa where he opened his first restaurant, "Tony's Fish Lunch."

With Lake Erie at his door step, there would be no better place to catch and serve up the best "Fish and Chips" than Erie. "Tony's Fish Lunch Restaurant became a famous Lake Erie destination as it thrived for 40 years serving the best steaks and seafood in Erie.

In 1955, Tony's son Nick joined the successful restaurant operation and in 1962, Nick took over the business. Fish and Chips (fries) were a natural for Nick who was involved in his father's restaurant at a very early age. In 1965, Nick purchased "Nipper's on the Beach," another full service restaurant directly across the street from "Tony's Restaurant." Nick had a virtual monopoly with the only two restaurants at Erie's Docks. Nick soon realized that everyone loved his fish and chips (fries). By 1970, the economy in Erie had deteriorated so Nick began seeking out other opportunities. Since his experience was geared towards seafood, he sought out an up and coming fast food business called "Arthur Treacher's Fish and Chips" which at the time had only a few locations nationwide.

In 1972, after 43 years of hard work, Nick sold both restaurants and moved to Cockeysville, Md. where he and his family purchased Maryland's first Arthur Treacher's Fish and Chip Franchise. The first Maryland location was in the heart of Towson, Md. Arthur Treacher's Fish and Chips became the nation's largest quick service Seafood Restaurant Chain with over 300 locations. Andy, age 12 at that time, worked in the chain stores on weekends and summers helping to grow the business. At the age of 15, Andy was involved in training managers for the multiple store locations and would eventually manage his own location at 28 years old.

In 1984, with 12 Arthur Treacher's Fish and Chip locations in the Baltimore/Baltimore Metro area and 300 locations nationwide, Nick sold the business and retired. Andy graduated from Towson State University in 1983 with his degree in Business Administration and went on to open and run several small businesses. He then became involved in the Banking and Brokerage industries representing several top banks and insurance companies.

Andy has spent the last 22 years researching and perfecting the process of making the finest "Original Fish and Chips." He has mastered the "Secret Better" that once was famous throughout the U.S. and England. In April of 2007, after many years, Andy and his family are bringing the concept of "Original Better Dipped English Style" Fish and Chips to the Baltimore area.

Original Fish and Chips, Inc. is located at 105 Carroll Island Road, Ste. B in Middle River directly across from Walmart. The restaurant prides itself on serving the finest English Style "Fish and Chips" cooked in 100% Peanut Oil and has expanded their menu to include: Crab Cakes, Shrimp, Chicken, Clam Strips, Hushpuppies, Soups and much more. If you miss the best Fish and Chips served up just like long ago, this is the place you should try. Enjoy your Fish and Chips "British Style" with a splash of Malt Vinogar.
